Pastel

Crystal

Metallic

Info

The base product for our balloons is milkwhite organic natural LATEX resin obtained from rubber trees (Hevea Brasiliensis), which grow in the tropics. Our balloons are 100% bio-degradable.

The balloons should be protected against bright sunlight and stored at room temperature. Ultraviolet light decomposes latex.

Balloons HELIUM filled - remain inflated for 10 / 24 hours and more. AIR filled - remain inflated for months. Helium is an inert gas, lighter than air. Its molecules are smaller and therefore escape faster through the latex balloon.

Type	B105	B085
